WEST WILTSHIRE MICROS

2 Months to Windows 7!

With the release of Windows 7 coming ever closer (October 22nd), people have been asking questions about which Windows 7 versions will be released, whether XP can be upgraded to Windows 7 and pricing.

Windows 7 will be released in 4 different versions.

Home Starter is the basic version similar to Vista

Home software. It comes with all the features needed to get you started (no fancy extras).

Home Premium replaced Vista Home Premium and comes with entertainment packages like Aero support and audio codec support as well as instant DVD playing.

Professional replaces Business edition and is built for the professional

user giving advanced networking support, backup software as well as all the Home Premium features.

Ultimate replaces Vista Ultimate edition and comes with features from both the Professional and Home Premium versions as well as encryption software and many future ultimate extras (moving desktop etc.).

“Windows 7 will be released in 4 different versions”

Upgrading from XP/Vista

(If you bought a laptop from us after 1st July please email us to find out how you can buy the Windows 7 upgrade)

Many Manufacturers will allow a “free” upgrade to Windows 7 for a modest shipping charge if you purchased your PC after July 1st (Check the manufacturer’s website for further information or give us a call).

If your computer is older you can pre-order Windows 7 directly from

Microsoft’s website at a reduced cost (this must be bought directly from Microsoft on-line). This offer is valid until the release of Windows 7!

Windows 7 Pre-release Prices

Home Premium £79.99
Professional £189.99

Ultimate £199.99

NB. Both XP and Vista Users can upgrade but are told to back up data and perform a clean installation of Windows 7

We will give preferential rates for performing this upgrade—please contact us nearer the time for prices.

“Many Manufacturers will allow a free upgrade to Windows 7 for a modest Shipping charge ”

Prize Draw

Sign up to receive our Newsletter by email and tell us what you think of us!

Email us with your name and address and a short testimonial about West Wiltshire Micros to enter our prize draw to win a 16GB USB memory stick worth £35.

Keep your Computer Clean & Healthy

“ Backing up your computer on a regular basis is a must”

Adam Dury (Senior Engineer)

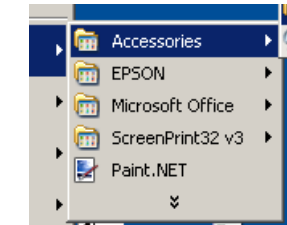

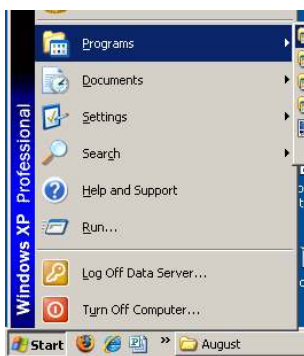

As you use your computer it gathers junk along the way. This can contribute sluggish internet speeds and slow loading times before programs are ready to run.

There are three main reasons for this.

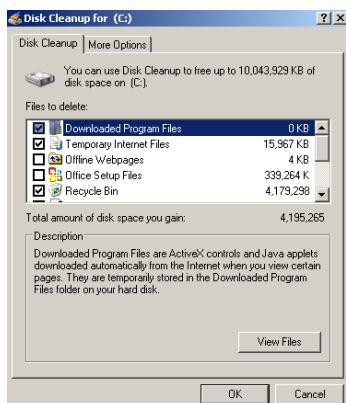

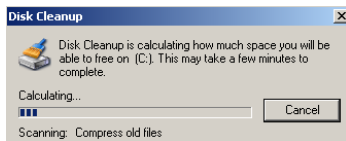

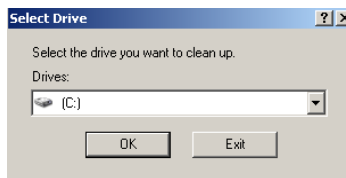

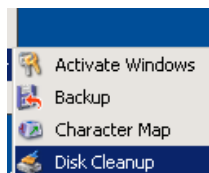

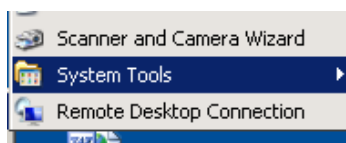

Temporary internet files and left over windows installation files can make your internet go slow and can cause some errors while online.

1. CLEAN TEMPORARY INTERNET FILES—USE MICROSOFT DISK CLEAN UP

Follow the selections below

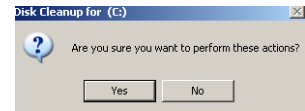

Choose C drive and press ok.

Leave the ticks in the boxes and click ok

Click Yes

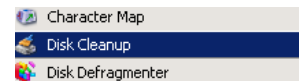

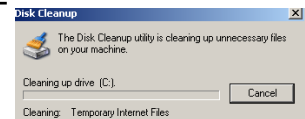

This will get rid of any unwanted files.

2. RE-ORGANISE FILES—USE MICROSOFT DEFRAGMENTER

Follow the same procedure. Instead of choosing Disk Cleaner choose

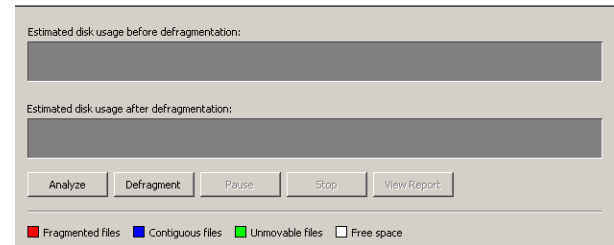

Disk Defragmenter

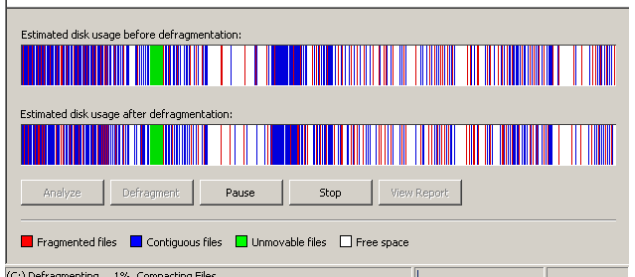

Choose C: Drive and click on Disk Defragmenter

This will condense all your files into one lump without

Volume	File System	Capacity	Free Space	% Free Space
(C:)	NTFS	46.13 GB	23.12 GB	50 %
Swap File (E:)	NTFS	9.77 GB	8.21 GB	84 %
DATA DRIVE (D:)	NTFS	149 GB	117 GB	78 %
removable drive (...)	NTFS	76.69 GB	20.60 GB	26 %

Volume	Session Status	File System	Capacity	Free Space	% Free Space
(C:)	Defragmenting...	NTFS	46.13 GB	23.12 GB	50 %
Swap File (E:)	NTFS	9.77 GB	8.21 GB	84 %	
DATA DRIVE (D:)	NTFS	149 GB	117 GB	78 %	
removable drive (...)	NTFS	76.69 GB	20.60 GB	26 %	

any spaces between them, speeding up loading times.

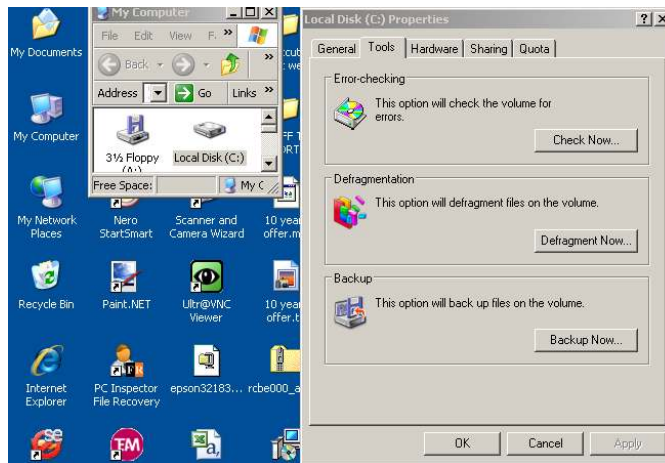

Keep your Computer Clean & Healthy

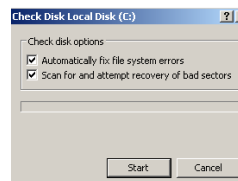

3. CHECK YOUR HARD DRIVE FOR ERRORS

Double click on My Computer. Then Right Mouse Click on C: Drive. Click the Tools tab and select CHECK NOW.

Tick all the boxes and click start. You need to restart your system to start

the check process. This will also take quite a while to complete.

WE DELIVER

Did you know that our website has a web forum which allows registered members to post questions or even hints and tips allowing others to fault find issues themselves through the help of previous member issues. The forum is built for users to help each other out by answering questions with answers that helped them. A WWM engineer may also reply to the message which will then be stored on the forum for future reference!

Another addition to the website is our Support Ticket. This allows a one to one support Q&A between you and a WWM engineer who will try and help you as much as they can (NOTE: The support ticket system is a message based system, we will endeavor to reply to all messages within 48 working hours).

Both these site extras are free! To access them head over to <http://www.wwmicros.co.uk> and click on either "Forum" or "Support Ticket".

Current offers

AVG Internet Security for up to 3 computers, 2 years £50 instead of £60. While stocks last.
